> *Every project begins with a clear scope and a fixed quotation — no hidden costs, no surprises, just transparent digital delivery from concept to launch.*

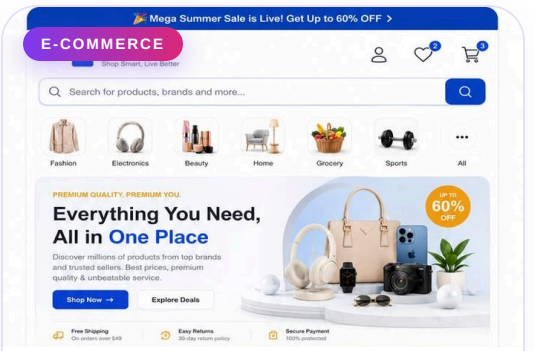

Real Platforms, Real Results

A look at the type of websites, dashboards and digital products our team designs and builds for clients.

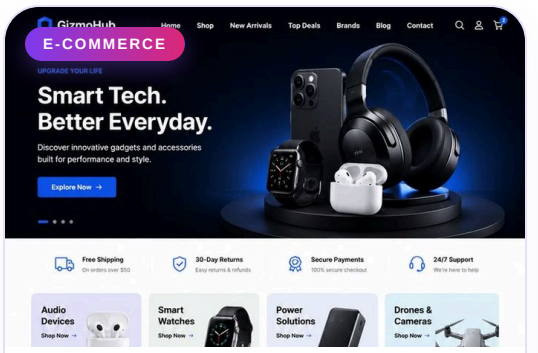

B2B Lead Generation

Business management systems built to track leads, deals and client relationships end-to-end.

Marketly — Shopping App

Full-featured e-commerce experience with deals, wishlists, categories and secure checkout.

GizmoHub — Tech Store

Product-focused storefront with top picks, best sellers and a clean conversion-ready layout.

BizNext — Business Website

Modern corporate landing page with growth dashboards, services and trusted-brand sections.

Multi-Layout Web Design

Custom development, responsive layouts and ongoing maintenance across every project.

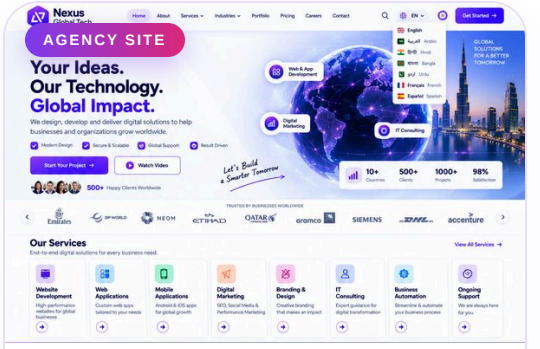

Full-Stack Website Development

Fast-loading, SEO-friendly builds across e-commerce, fashion, grocery and dashboard products.

Custom Admin Dashboard

Live analytics, leads, orders and revenue tracked in one clean, role-based control panel.

Full Agency Website Platform

Complete multi-section site with services, pricing, live demos and global client trust signals.

Every project follows the same process

From requirement to launch — the same team, the same transparent pricing, the same post-launch support shown throughout this brochure.

Startup & Agency

Best for businesses that need a professional online presence with room to add e-commerce, CRM or admin features later.

Advanced

Our most recommended package — full business systems, e-commerce, database functionality and priority revisions.

Enterprise

For organisations that need unlimited scope, a mobile app and fair-use priority support on a fully custom build.

Choose Your Project Category

Each category has a transparent starting price — now 40% off for a limited time. Final pricing depends on pages, features, integrations, user roles and technical complexity.

WEB

12 — **Project Categories**
Covering websites to enterprise SaaS platforms.

01 — **Dedicated Team**
One expert team owns your project end-to-end.

100% — **Scope Transparency**
Every quotation is fixed before development starts.

Platforms We Build Most

Six of our most requested solutions — operational systems, e-commerce platforms and premium brand websites.

SECURE

High-Security Platform

Protected access, controlled administration and secure workflows.

- ✓ Secure login & role-based access
- ✓ Admin audit workflow
- ✓ Protected documents

STARTING FROM
~~$4,500+~~ **$2,700+**

SEO

SEO & Performance

Stronger search visibility, cleaner structure and faster experience.

- ✓ Technical audit & on-page SEO
- ✓ Indexing & sitemap
- ✓ Analytics & tracking

STARTING FROM
~~$2,500+~~ **$1,500+**

SHOP

E-Commerce Platform

Professional customer journey with a full management dashboard.

- ✓ Products, cart & checkout
- ✓ Online payments
- ✓ Orders & customer admin

STARTING FROM
~~$5,000+~~ **$3,000+**

CRM / ADMIN

Business Management System

Manage leads, customers, teams and operational workflows.

- ✓ Lead pipeline & customer records
- ✓ Roles, reports & dashboards
- ✓ API-ready architecture

STARTING FROM
~~$6,500+~~ **$3,900+**

TRAVEL

Travel & Booking Platform

Packages, bookings, payments and supplier management.

- ✓ Destinations & enquiry workflows
- ✓ Payment-ready structure
- ✓ Supplier integrations

STARTING FROM
~~$4,000+~~ **$2,400+**

CREATIVE

Creative & Agency Website

Premium websites for agencies, brands and creative businesses.

- ✓ Premium hero design & portfolio
- ✓ Case studies & showcase
- ✓ Motion-ready UI

STARTING FROM
~~$3,000+~~ **$1,800+**

Final package is selected according to project scope, required features and business goals.

Domain & Hosting Guidance Included

We help you choose and set up the right domain (.com, .net, .org and more) and hosting plan for your project — no separate technical guesswork on your end.

Secure Payments

We support multiple secure payment methods for global clients.

Payment gateway availability depends on the client's country, business type, legal eligibility, KYC requirements and the selected payment provider. Nexus Global Tech provides technical integration but does not guarantee third-party gateway approval.

Our Target Markets

We proudly deliver digital solutions for clients across multiple countries.

- UAE / Dubai
- Saudi Arabia
- Qatar
- Oman
- Bahrain
- Kuwait
- India
- Pakistan
- USA
- UK
- Russia
- And More

Country-specific requirements, legal regulations and compliance standards are reviewed during project planning.

24/7 Support
Round-the-clock assistance for critical issues

Registered Indian Business
Operating under Indian business regulations

Google Business Profile
Setup assistance available as an add-on service

Get Found On Google. Build Trust With Every Search.

We can set up and optimise your Google Business Profile alongside your website — so customers can call, get directions and view reviews directly from search results.

Integrated Suppliers & Travel Technology

We connect your travel business with global supplier systems, booking APIs and scalable workflows.

Global Suppliers

Booking APIs

Payment APIs

Inventory

Integration

- ✓ **Real-time availability**
- ✓ **Global inventory sync**
- ✓ **Booking automation**
- ✓ **Secure transactions**
- ✓ **Custom supplier integrations**
- ✓ **Scalable travel technology**

Note: Travel supplier integrations, booking APIs and third-party connections are scoped according to the client's approved supplier accounts, API access and technical requirements.

50+	24/7	99%	API
GLOBAL SUPPLIERS	BOOKING AVAILABILITY	TRANSACTION UPTIME	READY ARCHITECTURE

Multi-Supplier Aggregation

Connect flights, hotels and packages from multiple global suppliers into one unified booking engine.

Automated Booking Flow

From enquiry to confirmation — automated workflows reduce manual coordination and booking errors.

Secure Payment Handling

Payment APIs are integrated with fraud checks and secure transaction handling for every booking.

Start Your Project in 3 Simple Steps

A smooth and transparent journey from requirement to launch.

STEP 01

Share Your Requirements

Send us your project category, reference design, required pages, features, integrations and target market.

STEP 02

Scope & Fixed Quotation

We review the technical requirements, confirm the scope, timeline and provide a transparent quotation.

STEP 03

Design, Build & Launch

We design, develop, test, review and deploy your project with the agreed post-launch support.

Let's Build Something Amazing Together

Nexus Global Tech is ready to help turn your digital project into a scalable solution. Visit our website to explore and select the right project for you.

WEBSITE

www.nexusglobaltechs.com

No hidden costs. Additional features outside the approved project scope are quoted separately before development begins.

"Transparent scope. Fixed pricing. One accountable team from concept to launch."

Fixed Quotation

You receive a written, fixed-scope quotation before any development work begins — no surprise charges later.

Dedicated Point Of Contact

One accountable team stays with your project from the first call through to post-launch support.

On-Time Delivery

Clear timelines are agreed at scoping stage, with regular progress updates until launch.
